PROFESSIONAL SUMMARY:

Aspiring Java Full Stack Developer with hands-on experience in building responsive user interfaces using React, HTML5, CSS3, and modern JavaScript (ES6+). Possess basic knowledge of backend development using Core Java, Spring Boot, Spring Framework, Spring Data JPA, Hibernate, and RESTful APIs, including implementing CRUD operations. Familiar with MySQL databases, Git, GitHub, Postman, Eclipse, VS Code, and standard software development workflows.

TECHNICAL SKILLS:

Programming Languages: Java, JavaScript

Backend Technologies: Spring Boot, Spring Framework, Spring Data JPA, and Hibernate.

Frontend Technologies: HTML5, CSS3, React

Database: MySQL | **Query Language:** SQL

Tools: Git, GitHub, Postman, Eclipse, VS Code

PROJECTS:

Human Resource Management System **June 2025**

- Built a RESTful HRMS backend using Spring Boot, Core Java, MySQL, Spring DataJPA, and Hibernate in a layered architecture (Controller, Service, Repository).
- Developed CRUD REST APIs for managing employers, candidates, job postings, and applications using Spring Data JPA.
- Implemented bean validation (@Valid, @NotNull, @Size), global exception handling, and consistent JSON responses with ResponseEntity and DTOs.

Movie Reservation System **April 2024**

- Designed responsive booking UI using React, React Hooks, and CSS3 with dynamic seat selection and pricing.
- Developed the React frontend using functional components, React Hooks (useState, useEffect), React Router, and Axios, with real-time ticket cost calculation and localStorage-based state persistence
- Implemented transactional MySQL stored procedures to manage ticket bookings, update seat details.

E-Commerce Shopping System **March 2022**

- Developed a responsive e-commerce UI using HTML, CSS, and JavaScript with product search, filters, and cart persistence via localStorage.
- Implemented dynamic cart management and product listing features using JavaScript (ES6+), including add-to-cart, quantity updates, checkout form validation, and filter functionality using array methods.
- Integrated mock REST APIs using fetch and applied SOLID principles to keep the JavaScript code clean.

EDUCATION:

Bachelor of Technology in Computer Science and Business Systems **April 2025**

Francis Xavier Engineering College, Tirunelveli

CGPA:7.8%

CERTIFICATIONS:

- Java Full Stack Development – Q Spiders, Chennai.
- Fundamentals of Digital Marketing – Google digital garage.
- UI/UX Basics – Great Learning.
